Tile Power

Safe Acid Cleaner

An amazing and highly formulated product designed to clean and protect stainless steel, chrome and most metal surfaces. Quickly removes hard water stains and rust to bring the surface back to a "Like New" shine. Uses the same quaternary disinfectant as Formula 333 although not DIN number certified.

- Uses Phosphoric Acid to Refresh Steel Surfaces
- Amazing Cling, Holds to Vertical Surfaces Without Dripping or Running
- Inhibits Corrosion from Even Starting
